Products for Better Living.*

## Renewable Teakwood Decking

Superior hardness

Unmatched Stability

Low Moisture Retention

*The wood preferred by ship builders worldwide for  
ship decks and trim is now available for your deck!*

Until recently, the high price of teakwood and the environmental impact of harvesting old teakwood forests limited its use. Now Eco-\$mart offers teakwood from a renewable source! Lower costs and a positive impact on the environment result in the expansion of uses for this tough, resilient, beautifully grained hardwood.

All Eco-\$mart Teak Products carry the FSC Logo which identifies products grown in well managed forests certified by the Forest Stewardship Council. The FSC promotes environmentally appropriate, socially beneficial, and economically viable management of world forests.

### **Economically Smart. Ecologically Sound.**

FSC Certified Renewable Teakwood Decking is the perfect wood for your deck.

### **100% Heartwood Teak Decking**
