

Atmospheric Water Generator

*Extracts Pure, High-Quality Drinking Water
from the moisture in the air we breathe.*

Through the use of Reverse Osmosis and Ultra Violet technology the purest drinking water available is produced without the use of any chemicals, reducing harmful humidity in the air, while the Anti-Bacterial / Anti-Fungal air filters also clean the air in the office or home.

Operating indoors, the Atmospheric Water Generator creates up to 7.5 gallons of drinking water in a 24 hour period at a cost of only 1 kWh per gallon (national average of \$0.12)

Water is dispensed cold at 39°F and hot up to 195°F, perfect for instant soups, coffee, tea and other food products.

- ◆ *No plastic bottles!*
- ◆ *No fuel for transportation of water!*

Purchase the Atmospheric Water Generator On-line!
