

- THE BEST PRODUCTS
- THE HIGHEST QUALITY
- THE ULTIMATE PERFORMANCE
- ONLY SUPERIOR SERVICE & WARRANTY

Because the BIO-100 uses a High Intensity 19 mm. Quartz Lamp, only one lamp is needed, while other manufacturers need multiple lamps to obtain the same intensity. This is an added benefit, as lamp changes will be limited to one not two or more lamps per year. Extremely simple to install with lamp changes taking less time, the BIO-100 is a cost effective method for home object purification.
