

Built for life and the way you live it... MoistureShield® Composite Decking

MoistureShield® COMPOSITE DECKING

A patented product by A.E.R.T.

Is Backed by a

Advanced Environmental Recycling Technologies, Inc.

A.E.R.T., Inc. has been manufacturing composite building materials for more than 15 years. Through our patented manufacturing process, recovered wood fiber is encapsulated by recycled polyethylene plastic, creating a product impervious to moisture and decay. This process enables us to provide our customers with the top warranty in the industry. We stand behind our products and our warranty proves it.*

Features and Benefits

- No painting, staining or sealing
- Environmentally responsible
- Great for decks, docks and marinas
- Requires no special tools
- Splinter Free
- Backed by the best warranty in the industry

Three new colors

MoistureShield® Composite Decking is available in three new colors. Choose from Mahogany, Cedar or Cape Cod Gray. Set your creativity free! Build a unique and beautiful deck by mixing colors and designs. *Over time, MoistureShield® Composite Decking will lighten to a lighter shade of the original color.*
