

## Hurricane Impact Doors

[Hardware Options](#)

[Glazing Options](#)

[Overall Features](#)

All hardware components are precisely machined and have been designed solely for the Impact Series Doors.

### Hardware for Hinged Doors

**Handles** Hinged handle options are available in our Tiffany or Royal series.

Decorative plates and elegant handles with a White, Dark Brown, Satin Nickel or Gold Brass finish. Handle colors come with matching sills, with the exception of white handles, which have anodized aluminum sills.

**Multi-point lock system** with stainless steel plates provides excellent corrosion resistance, enhances performance, ensures smooth operation and offers the best security.

**One point lock system** with precision engineered latches and strength-enhanced deadbolts.

**Note:** For coastal exposures, our impact rated doors have hardware with HPVD coating, They are available in the Royal series, with either Satin Nickel or Gold Brass finish.

### Hardware for Gliding Doors

**Handles**

All handle options are available with White, Dark Brown, Satin Nickel or Gold Brass finish.

**Note:** For coastal exposure areas, our hardware in the HPVD coating is standard with all our impact rated doors; with the Satin Nickel and Gold Brass finishes .

### Multi-Point Lock System

Patio door lock sets are available for greater security; multi-point locks are standard on 8' height doors and optional on 6'8" and 6'11" doors.
