

# Game Changer **Eco-Aire**™

In-Duct Air Sterilization System  
The Solution for Virus-Free Air Flow!

# LOOKING FOR AN IMMEDIATE WAY TO SECURE VIRUS-FREE AIR IN YOUR BUILDING?

## THE ANSWER IS: **Eco-AIRE** IN-DUCT AIR STERILIZATION SYSTEM!

The Eco-Aire's unique design, UV light intensity and location in the HVAC system is the ultimate instant solution for effective eradication of 99.9% of in-duct pathogens (including COVID-19)!

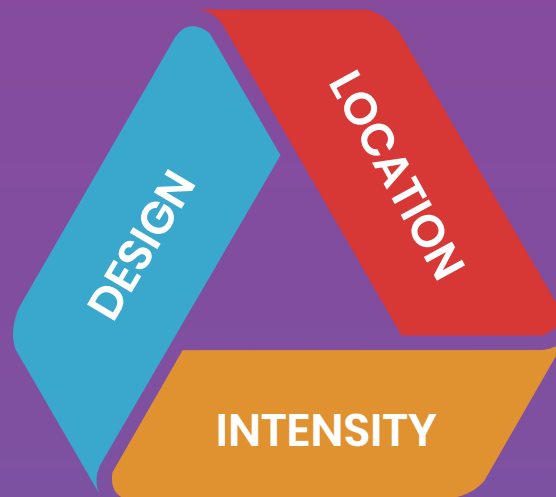

### CROSS CONTAMINATION IS PREVENTED!

Virus Type	Standard Filter > 1 µm	HEPA Filter > 0.3 µm	Other UV-C	Eco-Aire
COVID-19 Corona	N	N	N	Y
Diphtheria	N	N	N	Y
Hepatitis	N	N	N	Y
Influenza	N	N	N	Y
E.Coli	N	Y	N	Y
Anthrax	N	Y	N	Y

## Why Eco-Aire <sup>TM</sup>

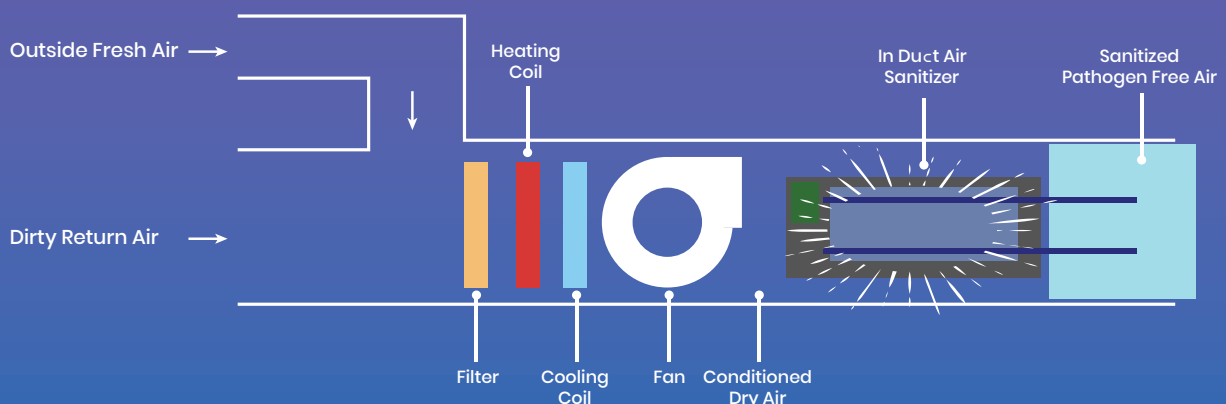

Eco-Aire's revolution lies in its

## Game Changer Eco-Aire <sup>TM</sup>

- **HIGH POWER** – Specific wavelength of ultra high UV-C light
- **LONG EXPOSURE TIME** – Light array radiates a long section of the duct

This unique design, intensity and location ensure 99.9% kill rate of all pathogen population in the duct fast-moving air resulting in **VIRUS-FREE AIR AND A SAFER SPACE FOR ITS OCCUPANTS!**

## What you get with Eco-Aire UVGI Sterilization system:

- Plug & play design that fits any existing commercial HVAC system and ducts
- High-intensity UV light at a very specific wavelength
- Low operational cost - \$0.02/sq.ft. per month
- No Ozone generation
- Healthier indoor air
- Reduced sickness due to cross-contamination
- Safe for use while the building is occupied
- An optional web base controller for real time control and monitoring of duct parameters
- Patent-pending system

**Stop Cross-Contamination in Commercial Buildings  
Offer Healthy Indoor Air To Your Occupants!**

**Pre-order Eco-Aire today!**
