Fabric-Shield Storm Panels are a highly effective alternative to aluminum or steel hurricane panels.

### Fabric Shield

# **CUSTOM STORM PANELS**

Translucent Fabric Storm Panels

Allows diffused light to enter

### Quick and Easy to Deploy No Special tools needed.

## Lightweight

Weighs a fraction of steel or aluminum panels making them easy to handle. Smooth, safe edges.

### Convenient

May be rolled, laid flat or hung for compact, easy storage.

#### Attractive

Flat clean look. Unobtrusive appearance. Easy to clean and corrosion resistant.

#### COMPLIANT WITH

Wayne-Dalton Fabric-Shield® Storm Panels have been evaluated and approved by the following:

- International Building Code (Windborne Debris > 140 mph)
- Florida Building Code (Windborne Debris Regions > 140 mph)
- Texas Dept of Insurance (All Windborne Debris Regions)

Design Pressure +62/-66 PSF

#### Large Missile Testing:

Florida Building Code TAS 201 (Large Missile) ASTM E 1886 / E 1996 (Missile Type "D")

#### Static and Cyclic Pressure Testing

Florida Building Code TAS 202 (Static Pressure); TAS 203 (1342 Cycles) ASTM E 1886 / E 1996 (9000 cycles) ASTM E 330 (Static Pressure)

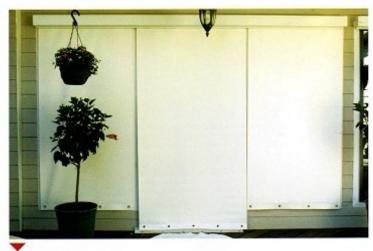

## STORM PANEL DECORATIVE STORAGE

Convenient, Permanent Storage for Custom Panels

#### Value

Adds more value to your home and more ease of use when storm protection is needed.

## Storage

Can easily store multiple panels.

Fabric-Shield storm panels are easier and faster to deploy when stored in the decorative cover.

## Attractive

Adds storage convenience with a sleek low profile.

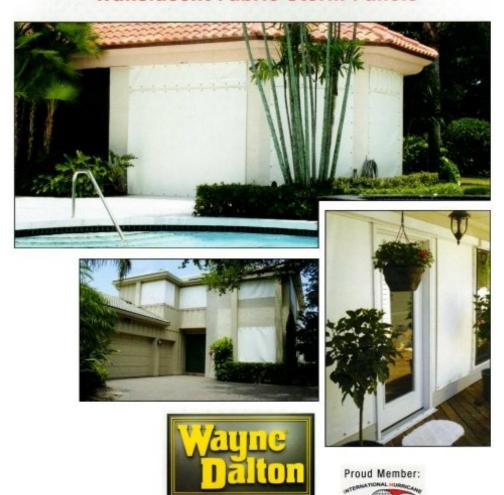

Neat

Velcro straps hold panel neatly inside decorative cover.
