

WESTCHASE

ENERGY WISE HOME

OVERALL DIMENSIONS

52'-0" x 52'-0"

Eco-\$mart offers a complete line of pre-cut and pre-engineered home and building packages utilizing structural insulated panel technology (SIPs). All packages erect quickly, are stronger than conventional framing and extremely energy efficient. SIPs can be clad in conventional OSB or in steel incorporating the patented Secure-Lock panel connection.

The key rooms in any home are where the family spends most of their time: the living area, dining room and of course the kitchen. All three of these rooms are very comfortable in size. The laundry room is another added feature of this model.

Plans and specifications are subject to change without notice. All dimensions are approximate.
